

Lesson 3 RGB Lights Control

1. Preparation

There are two RGB lights on the Raspberry Pi expansion board, as shown in the figure below:

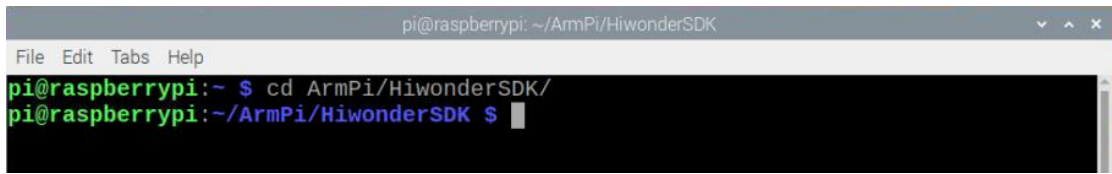

2. Have a Try

1) Click the icon shown below to enter the LX terminal command line

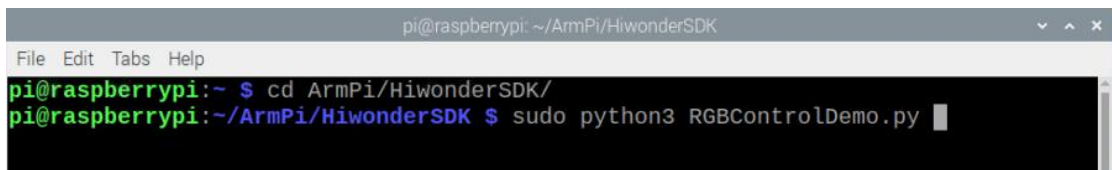

2) In the opened interface, first enter the command "cd ArmPi/HiwonderSDK/" and press Enter to switch to the directory where the routine is located.

```
pi@raspberrypi: ~/ArmPi/HiwonderSDK
File Edit Tabs Help
pi@raspberrypi:~ $ cd ArmPi/HiwonderSDK/
pi@raspberrypi:~/ArmPi/HiwonderSDK $
```

- 1) Input RGB light control command "sudo python3 sudo python3 BuzzerControlDemo.py"and press "Enter" key

```
pi@raspberrypi: ~/ArmPi/HiwonderSDK
File Edit Tabs Help
pi@raspberrypi:~ $ cd ArmPi/HiwonderSDK/
pi@raspberrypi:~/ArmPi/HiwonderSDK $ sudo python3 RGBControlDemo.py
```

- 2) Close this program, press "Ctrl+C".

3. Project Outcome

After the program running, the two RGB lights on the expansion board will flash in different colors in cycles, and the color flashing sequence is:red, blue, and yellow.
